WATERPOWER DAY (JUNE 20TH), MILLSTREAM PHOTO TOUR - COME SEE INSIDE A HYDROPOWER PLANT

To keep with the theme of Waterpower Day in Ontario, come with us on a virtual tour inside of a hydropower station while we go on the hunt for applications for bearings, shaft seals, bushings, and more! As we explore the inner workings of the power station, we look for areas where our innovative products and expertise can make a real difference in efficiency and reliability.

NATIONAL ELECTRICITY MONTH & INTRO TO HYDROPOWER

June is recognized as National Electricity Month, a time to recognize the pivotal role of electricity in our technical and professional lives.

Electricity's journey from curiosity to necessity has been marked by significant milestones. The work of pioneers like Edison and Tesla laid the groundwork for the modern electrical systems we rely on today. Their innovations in direct current (DC) and alternating current (AC) power revolutionized how we harness and distribute energy.
