

ANNOUNCEMENT

EXCITING NEW COLLABORATION

We are thrilled to announce a new collaboration with Resimac Ltd., a global leader in high-performance industrial coatings and repair materials. Since its inception in 2009, Resimac has been at the forefront of innovation, providing advanced polymer coatings and composite repair systems to customers in 60 countries.

Resimac's products, known for their durability and performance, cater to a wide array of industrial needs, including marine, oil and gas, water and wastewater, power generation, and manufacturing. Their extensive product range includes:

[More Info](#)

- **Metal Repair Materials:** Robust solutions to restore structural integrity and extend the life of critical components.
- **Corrosion Protection Coatings:** Shields metal substrates from harsh environmental conditions, preventing corrosion and enhancing asset longevity.
- **Chemical-Resistant Linings:** Provides superior resistance to a wide range of corrosive substances, ideal for aggressive chemical environments.
- **Abrasion-Resistant Solutions:** Protects equipment from high-wear conditions, reducing maintenance costs and downtime.
